PRODUCT ADVANTAGES

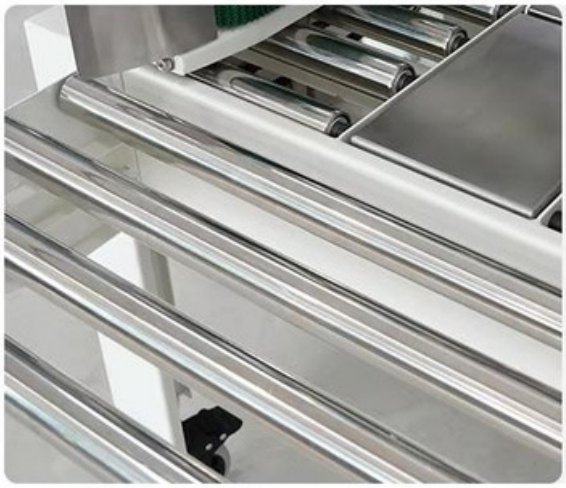

Automatic sealing can beused to seal different size cartons

Say goodbye to manual packing cumbersome processes, automatic control of sealing boxes of different sizes of cartons, a machine all done

Height and width can be adjusted

Can be adjusted according to the situation to suit your different needs

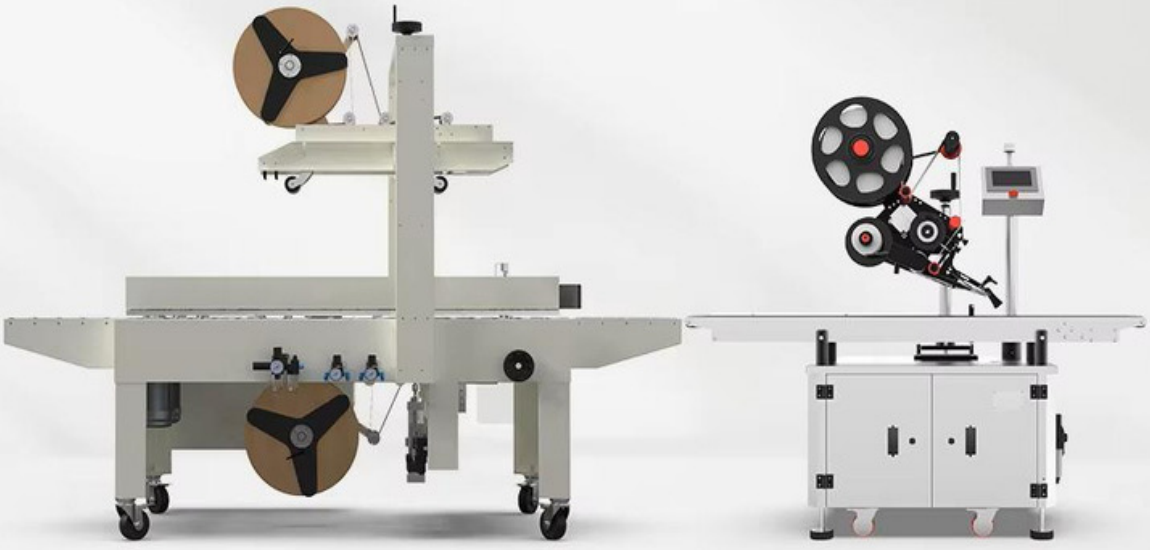

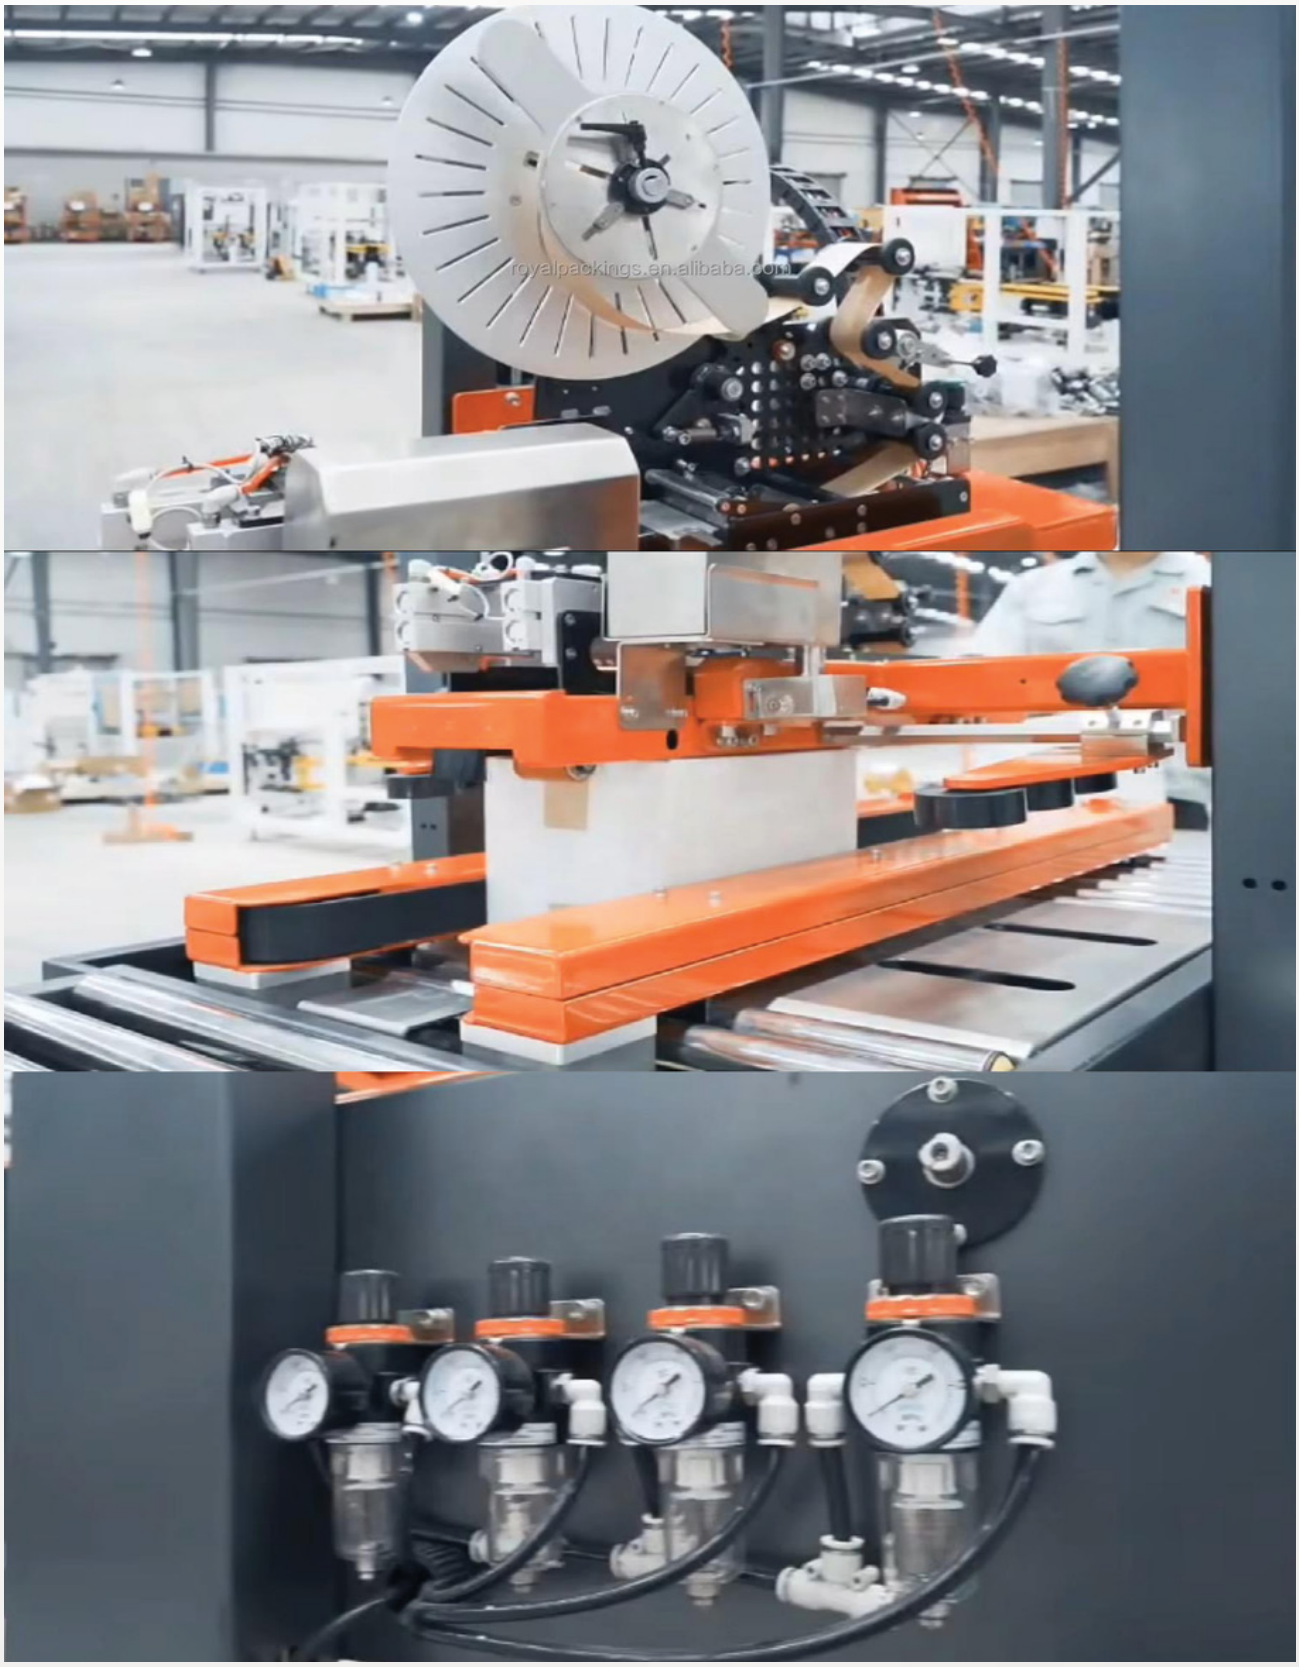

Thickened stainless steel roller

The use of stainless steel conveying process is more stable longer service life

It can be matched with express labeling machine to achieve assembly line express packing

The sealing box labeling completes the assembly line operation at onetime, eliminating the need to solve your packaging efficiency problems
